Our Commitment to you:

The Fuel Additives, Oil Additives and Biodegradable Hydraulic Oils that we provide are non-oxidising, non-corrosive and can not cause any damage to engines or fuel systems when used as instructed. We guarantee that CB Gold, Mettle Plus and Bio Oil are in full compliance with international quality standards and technical specifications, as well as the manufacturers product qualification indicators. We guarantee that regular use of CB Gold will not cause damage to engines and cannot void any warranties. Should any Evidence to the contrary be proven and confirmed by relevant authorities, we are willing to take all necessary action to resolve the matter. CBOA – Oil Absorbent is certified by AMSA (Australian Maritime Safety Authority) & included in the OSCA (Oil Spill Control Agent) listing as a 100% Organic Absorbent. CBOA is the only **Organic** Natural Absorbent approved for the National Plan in Australia. Using this product mitigates your risk exposure when cleaning up spills under Commonwealth Law and the EPBC Act in an open environment. For further information we would be happy to direct you to the appropriate Manager in AMSA to confirm this independently.

We look forward to working with you to Reduce Environmental Impact, Increase Performance, Reduce Cost and Improve Reliability.
